Investment Highlights

- We aim to identify companies with significant upside potential before they are discovered by institutional investors. Our size and flexibility are key advantages.
- We expect to outperform the major indexes over a full investment cycle (7-10 years) with lower volatility.
- We expect the fund to generate an uncorrelated return profile relative to the major indexes ($R^2 < .50$).
- The strategy is capacity constrained at \$100 million to maximize the opportunity set.
- The general partner is the fund's largest investor.

Manager Profile

- Andrew Summers, CFA founded Summers Value Partners, LLC and is responsible for managing all aspects of the investment process and strategy for the fund.
- Prior to founding Summers Value, Mr. Summers spent twenty years working for large asset managers including INVESCO Funds and Janus Henderson Investors.
- Mr. Summers graduated *summa cum laude* from the University of Wisconsin-Whitewater with a Bachelor's degree in Business Administration and has a Master's degree in Finance from the University of Wisconsin-Madison, where he also completed the school's Applied Security Analysis Program (ASAP).

Disclaimers

¹Summers Value Fund LP net return is the unaudited, net return, based on the management fee and incentive allocation applicable to Class B Interests (1.25% management fee: 20% incentive fee above a 6% annual cumulative hurdle rate). Net return is not necessarily indicative of any single investor's performance. An investor's return may vary from the results shown based on different fee structures and fund-level expenses. The performance information given is historic and should not be considered as an indication of future performance. Performance reflects the reinvestment of dividends and income.

Definitions:

Indexes: The performance of market indexes is being provided for the purpose of making general market data available as a point of reference only. These indexes are widely recognized by investors, followed by the investment industry and readily available to the investing public. The indexes do not reflect fees and expenses associated with the active management of portfolios. Furthermore, it should be noted that investors may not be able to invest directly in the indexes. The performance returns of the indexes were obtained from recognized statistical sources and include the reinvestment of earnings. Although Summers Value Partners LLC believes these sources to be reliable, it is not responsible for errors or omissions from these sources.

Russell 2000 Index ETF (IWM): An index measuring the performance of approximately 2,000 small-cap companies in the Russell 3000 Index, which is made up of 3,000 of the biggest U.S. stocks. The Russell 2000 serves as a benchmark for small-cap stocks in the United States.

Russell Micro-Cap Index ETF (IWC): An index measuring the performance of 1,393 small-cap and micro-cap stocks that captures the smallest 1,000 companies in the Russell 2000 plus 393 smaller U.S.-based listed stocks. The broad index represents the smallest tradable securities that still meet exchange listing requirements, so OTC stocks and pink sheet securities are excluded.
